our airport

The AMSP focuses on the unique history of Santa Paula Airport which has been part of aviation history for more than 75 years. Today, it is one of the largest employment centers in the area and has been the favorite destination and/or home of many aviation legends. The Airport recently received a federal grant, assuring the perpetuity of the airport for generations to enjoy. This also guarantees a home for the Aviation Museum of Santa Paula (a completely separate entity).

Visit the Aviation Museum of Santa Paula and the Airport to experience the wonders of flight at these events:

- On the "First Sunday" of every month, the Museum hosts an Open House* where local aviation history comes alive! Our "Chain of Hangars" are open for you to explore from

10am until 3pm displaying vintage aircraft, experimental aircraft in various phases of construction as well as airplanes frequently flown simply for the pleasure of flying.

- Aviation related speakers are invited on "First Tuesdays" of the month to share their amazing stories – at least quarterly, often monthly, and always free.
- Other annual AMSP events include a Summer Dinner Dance and "Wine and Wings" which includes a sensational Silent Auction in the Fall.
